

Hi! I've been building websites professionally for over 10 years and I specialise in HTML, CSS and JavaScript.

I have worked for various agencies and companies around Amsterdam and Sydney - Funda, DigitasLbi (a.k.a Lostboys), Ninemsn (Microsoft) to name a few. I have also done freelance work for various small-medium sized businesses all around the world.

I can help you build a brand new website, or make your current site responsive (so it also works on mobile and tablet), as well as help improving its UI, add a Web-Shop, etc. I live and breathe responsive and minimalistic design and believe in "less is more".

I am also an avid traveller and have explored a lot of places over the last few years. This experience has exposed me to a lot of new people and cultures, and I am used to working in multi-national distributed teams on-site and remotely.

Skills

- HTML(5)
- jQuery
- WordPress
- CSS(3)
- Demandware
- Scrum
- Responsive Web Design
- Git
- Test Driven Development
- JavaScript
- Grunt
- Agile Methodologies

Experience

Bestseller, Amsterdam

Apr 2015 - Sept 2015

Senior Front-End Developer (Contract)

Bestseller is a worldwide brand with 19 brandnames under its umbrella including Jack & Jones, Vero Moda and Only. They have 3000 branded chain stores across 70 countries. I was part of their Demandware E-commerce front-end team.

- Vero Moda website redesign
 - Product page redesign of all of their 19 brands including Jack & Jones, Vero Moda and Only to name a few.
- Technologies: HTML5, CSS(SASS), Javascript (jQuery), RequireJS, Grunt, SVG

DigitasLbi (Lostboys), Amsterdam

Jul 2014 - Mar 2015

E-Commerce Front-End Lead Developer

Lostboys is the oldest digital agency in Amsterdam. Tight deadlines, continuous integration, and a fast changing environment is what we lived and bred.

- Building web-shop discount marketing campaigns for SCS(Sofas and Carpet Specialist - big sofa retailer in the UK with 100+ stores), thereby maximising sales (Up to 400% during Christmas/New Year 2015).
 - Continuously improving the website and web-shop for Vertu global (luxury phones brand from the UK, formerly owned by Nokia), adding new product lines, and promotional campaigns. Multi lingual and a pixel perfect classy UI, design heavy website
 - Re-design and built a new fluid pinterest style homepage for Scotch and Soda (a fashion label in Amsterdam).
- Technologies: HTML5, CSS(SASS), Javascript (jQuery), RequireJS, Grunt, SVG

Funda, Amsterdam

Jul 2013 - Jun 2014

Web/Mobile Developer

Funda is the largest online real estate company in Netherlands. <http://funda.nl> gets about 8 million hits a day. They have an fast-paced Agile environment with an interesting mix of technologies, mostly Microsoft based.

- Improvements and bug fixes to their agent portal (makelaar admin).
 - I built an internal CRM for the sales team based on knockout.js, and Microsoft CRM api
 - In 2014 I moved to the Mobile team where I was mainly involved in building and maintaining HTML5, CSS and javascript for common web-views that they use across different apps on different devices.
 - Develop and maintain mobile website <http://m.funda.nl>
- Technologies: HTML5, CSS3, Javascript, JQuery, C# .NET, ASP.NET MVC, Knockout.js, SQL Server 2012, Umbraco, Microsoft CRM 2011

Ninemsn (Microsoft MSN), Sydney

Aug 2010 - Jun 2013

Lead Full-Stack Web Developer

I was actively involved in coordinating and developing, conducting daily Kanban stand-ups, mentoring fellow developers and liaising with clients and management. I worked in scrum teams building many projects:

- Leading news portal of Australia <http://news.ninemsn.com.au>
- A game competition for London Olympics 2012 - users score points by sharing articles on their wall and are awarded badges on the basis of points. This was mainly built using the Gigya Javascript API (and JQuery)
- Marketing competitions for Mitre10 and Seek.com.au (HTML5, CSS3, Javascript)
- Ad Re-targeting Engine which helped Ninemsn target ads based on user traits.
- Organising company wide Hack day (Hackathon) for 100+ developers, designers and data analysts.
- Building and supporting Gigya social platform from scratch, using Javascript, JQuery and RequireJS.
- I built an internal Error Logging Framework to log tens of thousands of errors every minute from 80 websites and build reporting on top of it.
- I was also involved in building a Ad Re-targeting Engine which helped Ninemsn target ads based on user traits.

Technologies: Html5, CSS3, JQuery, RequireJS, Gigya, ASP.NET MVC, Sitecore

Cloud55, Sydney

Jun 2012 - May 2013

Part Time Co-founder and CTO

A boutique IT consultancy specialising in phone apps and be-spoke web development projects. I am mainly involved in IT Project Management and Sales.

Lucsan Capital, Sydney

Mar 2010 - Aug 2010

Software Developer (Contract)

Lucsan Capital is a small-medium sized firm dealing with data migration for banks and other financial institutions. While I was working there, I was involved in re-factoring and building new features for their in-house data-migration suite written in C# .Net, and SQL Server. I helped them design a WPF based add-in that would auto-generate workflow diagrams showing migration status and other charts.

Adept Business Systems, Sydney

Mar 2008 - Mar 2010

R & D Developer

I was involved in a large scale project migrating a CRM software for Commercial Real-Estate firms, from a legacy desktop Progress Software based platform to a Web Application (now called SargaCentral). I was also involved in supporting their legacy applications from time to time.

Satyam Computer Services, Sydney

Sep 2006 - Feb 2008

Sales Assistant

At Satyam I was assisting the Regional Sales head helping him with number-crunching, sales trends for his team, tracking lost purchase orders and invoices, as well as assist setting up monthly sales meetings. In the first year, I helped them track down and retrieve millions of dollars of lost revenue from their biggest clients in Australia. I was sitting in meetings with managers and senior execs from big companies, which gave me a strong basis to learn and grow in my career.
